## MESSAGE

The Micro, Small and Medium Enterprises (MSME) sector is a vital sector of our economy contributing more than 40% of industrial manufacturing and is also the second largest source of employment. Aptly considered to be the back-bone of our socio-economic system, MSMEs are considered priority sector by the Government of India which is dedicated to the holistic development through various schemes and measures. A number of stimulus measures were given to the MSMEs to enable them to overcome global financial crisis and economic slowdown and emerge as a vibrant sector.

An important step in enriching the various stakeholders of the MSME sector is to develop and strengthen MSME related information base. In this direction, I am pleased to note the initiative of the Small Industries Development Bank of India (SIDBI) in coming out with comprehensive MSME Database at single source.

I congratulate SIDBI on this unique endeavor and hope that this Publication will be of great use to the policy makers, researchers, bankers, academia, and MSMEs at large.

## FOREWORD

Micro, Small and Medium Enterprises (MSME) sector has emerged as a strong pillar of Indian Economy with significant contributions to national economy. The sector has engaged the attention of policy makers, planners and government of India, since long. However, meaningful understanding of the MSME sector has been constrained by information asymmetry due to unavailability of diverse and time series data / information on different aspects of the MS ME sector.

Small Industries Development Bank of India (SIDBI), being the principal financial institution for the MSME Sector in India, has always been endeavouring towards promotion and development of the Micro, Small and Medium Enterprises Sector. As a part of our policy advocacy role and keeping the above challenges in mind, we have made an attempt to collate a comprehensive database on the MSME sector. We are confident that this will not only enable the policy makers, GOI, Financial Institutions etc. to access useful information at one place but also shall enable international partners and organizations looking at forging cooperation or business linkages with Indian MSME domain.

We are thankful to Dr. C. S. Prasad, who has completed this challenging and enriching assignment for us. We are grateful to DFID, UK, for providing Technical Assistance for this project. We shall host this database on our websites ([www.sidbi.in](http://www.sidbi.in) and [www.msmeftp.net](http://www.msmeftp.net)), so that, the database is readily available to all stakeholders of the MSME sector.

## PREFACE

In India, Micro, Small and Medium Enterprises (MSME) sector has engaged the attention of policy makers, planners and researchers in the country since long. Due to the very nature of this sector, often the information available on this crucial sector has been found to be fragmented and heterogeneous. There is a genuine need for all-inclusive information on various parts of the sector at a single consolidated source.

Guided by the belief that better information leads to better efficiency and decision making, SIDBI has prepared a booklet of MSME Database as a one-point reference for researchers, analysts and policy makers. This database is expected to bridge the prevailing gap of authentic information on the MSME sector through dissemination of accurate and comprehensive data / information.

The Database has been divided into thematic sections for the purpose of classification and structuring of information covering the most vital issues that concern MSMEs on topics, such as, Credit Data, Non-Performing Assets, Alternative Sources of Finance, etc. to present a structured analysis.

We sincerely hope that this comprehensive MSME Database succeeds in bridging the informational gap and serves its purpose in a meaningful way.

## Executive Summary

The MSME database has been divided into seven sections for the purpose of classification and structuring of information. An outline of various sections is presented below:

### Section 1. Indian Economy

#### Scope:

This section gives an overview of India's macroeconomic indicators including time series data on Gross Domestic Product (at current and constant prices), external sector (including import/export of principal commodities), sector-wise and use-based classification of industry. The data up till FY 2009 are present in annualised format and the latest available monthly/quarterly data for FY 2010 are provided to give the current status of the economy.

The sources of data are Ministry of Statistics and Programme Implementation, Ministry of Commerce and Industry, Gol and Foreign Exchange Dealers' Association of India along with various publications of Reserve Bank of India. The data not only provide a snapshot of current position of our economy, but also allow a trend analysis of various indicators to determine incremental changes over a given time frame.

#### Major Observations:

- It is interesting to observe that 'services sector' has been accounting for a larger share of GDP than that of industry. For example, the share of agriculture, industry and services sector in FY 1951 was 55%, 15% and 30%, respectively. As the economy progressed along with the structural transformation, the shares became 16%, 28% and 56%, respectively, in FY 2009.
- The service sector has played an increasingly critical role in the economy, recording an average annual growth of 9 per cent in the period from FY 2004 to FY 2008. The sector has consistently showed, and imparted stability to the economy during various crises, such as, the Gulf Crisis in 1991, East-Asian Crisis in 1997 and recent global financial crisis and economic slowdown, 2008.
- Over the years, with liberalization and opening up of Indian economy, the external sector has come to play a critical part in the development process. With policy shift from import substitution to export promotion, the ratio of exports to GDP increased from an annual average of 3.4 percent in the 1960s to 3.7 percent in the early 1970s, 5.3 percent in the latter part of the 1970s and further to 15.0% in FY 2009.

## **Section 2. MSME Sector**

### **Scope:**

This section presents various characteristics of Micro, Small and Medium Enterprises (MSME) sector including state-wise and industry wise, classifying data according to area of operation of units (Rural/Urban) and type of unit (Registered/Unregistered). Some of the indicators are number of units, employment, investment in plant and machinery, export and net worth.

The data are based on Third Census of Small Scale Industries (Reference Year 2001-02) and quick results of Fourth All India MSME Census (Reference Year 2006-07). The Fourth Census Data are presented as per the new definition of MSME Development Act, 2006.

### **Major Observations:**

MSME sector has played a vital role in development process of our country over the years. As per the Fourth Census, the sector comprises 26 million enterprises of which almost 95% are micro enterprises. The sector contributes over 40% of our exports, 45% of our industrial output, providing employment to more than 60 million people, while at the same time emerging as an instrument for creating wealth at the grass root level and ensuring equitable and inclusive growth.

## **Section 3. MSME Clusters**

### **Scope:**

The data includes list of 6636 MSME clusters in India, with their location and product profile, as well as tracking the progress of schemes and assistance programmes for MSME sector, being undertaken under various Ministries of Government of India. Cumulative data for number of units and assistance provided under each scheme upto latest available figures are also provided.

The schemes covered include:

- i. Micro Small Enterprises Cluster Development Programme, Integrated Handloom Cluster Development Programme, Baba Saheb Ambedkar Hastshilp Vikash Yojana of Ministry of MSME;
- ii. Scheme of Fund for Regeneration of Traditional Industries (SFURTI) of Ministry of Agro and Rural Industries;
- iii. Infrastructure Upgradation Scheme (IIUS) of Ministry of Commerce and Industries
- iv. Provision of Urban Amenities In Rural Areas (PURA) Scheme Of Ministry Of Rural Development amongst others

## Major Observations:

- The MSME clusters in India range from traditional textiles clusters to auto ancillary units producing components for global auto manufacturers.
- Ministry of MSME, Govt. of India has adopted more 650 clusters under its three schemes for promotion of MSMEs namely, Cluster Development Programme, Integrated Handloom Cluster Development Programme and Baba Saheb Ambedkar Hastshilp Vikash Yojana.
- Under the Self-Help Group Bank Linkage Programme, 8,07,905 SHGs were provided assistance of Rs 4,585 crore via bank loans and Rs 2,620 crores through refinancing of banks by NABARD during FY 2009.

## Section 4. Credit Data

### Scope:

This section captures the outstanding credit data of Scheduled Commercial Banks of the non-food sector including Priority sector and MSME sector. The data are classified bank-wise (public, private and foreign), state-wise and district-wise.

In order to facilitate trend analysis, an effort has been made to provide time series data wherever possible.

Data pertaining to Credit Linked Capital Subsidy Scheme, Rural Employment Generation Programme and Prime Minister's Rojgar Yojana (now merged under the Prime Minister's Employment Generation Programme) are also included. The data for these schemes are based on annual reports of Ministry of MSME.

### Major Observations:

- India is one of the few countries where credit to Micro and Small Enterprises (MSE) is treated as priority sector lending under the 40% limit; more importantly, 60% of the MSE credit has to be earmarked for the Micro Enterprises. This has a positive effect. The share of MSE credit in the Adjusted Net Bank Credit of Public Sector Banks has been increasing from 7.8% in as on the last Reporting Friday of 2007 to 11.3% in 2009. The share of MSE credit in the priority sector credit has equally increased from 19.7% to 26.5% during the same period.
- Various monetary, fiscal and banking measures by Govt of India/Reserve Bank of India have had a positive impact on the financial system, especially on the credit to MSE sector. For example, outstanding MSE credit at Rs. 3,35,654 crore as on November 20, 2009 recorded a growth of 27.4 per cent (y-o-y) as compared with 21.1 per cent during the corresponding

period of the preceding year.

- Public Sector Banks have already doubled the credit to MSME sector ahead of targeted schedule as announced in the Policy Package for Stepping up Credit to Small and Medium Enterprises in the Parliament on August 10, 2005.

## **Section 5. NPAs/Sickness in MSME Sector**

### **Scope:**

The data in this section pertain to NPAs and sick SSI/MSME units of scheduled commercial banks. Year-wise, bank-wise and sector-wise gross and net NPAs of SCBs are provided.

### **Major Observations:**

- SCBs have made significant improvement in level of NPAs on balance sheets over the years. Gross NPAs as percent of total advances has gone down from 15.7% in FY 1997 to 2.3% in FY 2009. In the same period, gross NPAs as percent of total assets reduced from 7% to 1.3%. However, Net NPAs as percent of Net advances increased marginally to 1.1% in FY 2009 as against 1.0% in FY 2008
- While the public sector banks showed an improvement in their NPA position, the same had worsened in FY 2009 for new private sector banks and foreign banks.
- Public Sector Banks had Gross NPA level of Rs 44,042 crores in FY 2009, of which 55.2% was contributed by priority sector and 15.9% by Small Scale Industries.
- Gross NPAs in Private Sector Banks stood at Rs 16,887 crores for FY 2009, with 21.6% and 4.0% in Priority Sector and Small Scale Industries, respectively.
- Foreign Banks had Gross NPAs of Rs 7,155 crores in FY 2009, with 9.1% from Priority Sector and 3.1% from Small Scale Industries
- Total Number of sick MSME units stood at 99,940 with an outstanding amount of Rs 15,588 crore in FY 2008 of which 14,754 were Micro and Small units (14.8%), while 85,186 were medium units (85.2%). Within the total outstanding of MSME sick units, the share of micro and small units stood at Rs 1,740 crore (11.2%) and medium units being Rs 13,849 crore (88.8%).

## Section 6. Alternative sources of finance for MSMEs

### Scope:

This section captures data relating to alternative and emerging sources of finance for MSME in India. While banks continue to play an important role in meeting the funding needs of MSMEs, several new modes of financing have emerged as the potential source of finance for MSMEs. These include sources like capital markets, factoring, securitization, venture capital, etc.

### Major Observations:

- Regional Rural Banks had outstanding advances of Rs 69,030 crore in FY 2009, recording an increase of 17.0% over that of FY 2008. Advances to MSME sector was Rs 1,743 crore recording an increase of 42.0% over FY 2008.

# Notes To Tables

## **For Table A1, A2, A3**

- i. Figures for Industry sector include Construction and Mining and Quarrying
- ii. Data for 2006-07 are provisional estimates, 2007-08 are quick estimates and 2008-09 are revised estimates.

## **For Table A4**

- i. With a view to ensuring stability in the monthly series of Index of Industrial Production (IIP) and remove the effect of change of deflators from the growth rates, the whole series of 2-digit level as well as use-based indices from April 1994 to May 2000 have been revised in July 2000 consequent to the shift in the base of the Wholesale Price Index (WPI) series from 1981-82 to 1993-94.
- ii. On account of the above one-time revision, the growth rates under certain industry groups/use-based categories have undergone some changes. As most of the new deflators have been used in Industry Group 38, i.e., 'Other Manufacturing Industries', the effect of onetime revision in the indices in this industry group is more prominent.
- iii. Another revision of IIP was made in January 2001 for the entire period April 1998 to November 2000 due to several reasons, such as:
  - a. The need for exclusion from the IIP commodity basket, few items, such as radio receivers, photo sensitised paper, chassis for heavy commercial vehicle (HCV) and engines, as they are highly prone to month to month variations
  - b. Availability of revised data on monthly indices of 'mining sector' from the Indian Bureau of Mines (IBM), Nagpur, for the period April 1994 onwards. The IBM had revised the index by incorporating the data on production of natural gas by private sector and joint venture companies and the internal utilisation part of the output of natural gas by public sector.

## **For Table A5, A6**

- i. Data for 2007-08 are revised and for 2008-09 are provisional
- ii. The tables relating to India's foreign trade are based on the data received from the Directorate General of Commercial Intelligence and Statistics (DGCI&S), Ministry of Commerce, Government of India. Some of the important aspects of coverage and composition of the data presented in these tables are briefly given below; for details, references may be made to the DGCI&S publications, namely:
  - a. Monthly Statistics of the Foreign Trade of India, Volume I and II,
  - b. Foreign Trade Statistics of India (Principal Commodities and Countries).
  - c. Foreign trade data relate to merchandise trade through all the recognized seaports, airports, land custom stations and inland containers depots, export processing zones, foreign post offices, etc. located all over India. Data on exports, which include re-exports, relate to free on board (f.o.b.) values and imports relate to cost, insurance and freight (c.i.f.) values. Exports and imports are based on the general system of recording, according to which exports relate to Indian merchandise and re-exports relate to foreign merchandise previously imported into India. Imports relate to foreign merchandise, whether intended for home consumption, bonding or re-exportation. Indian Trade Classification, Revision-2 (ITC-Rev. 2) which was based on Standard International Trade Classification Revision- 2 (SITC-Rev. 2), was in vogue from April 1977 to March 1987.
- iii. A new system of commodity classification known as Indian Trade Classification (based on Harmonised Commodity Description and Coding System), in short ITC (HS) has been adopted from April 1987. The ITC (HS) is an extended version of the International Classification System called "Harmonized Commodity Description and Coding System" evolved by World Customs Organisation previously known as Customs Cooperation Council, Brussels. Due to changes in trade classification of the commodities, as

indicated the time series data on exports and imports relating to certain commodity groups may not be strictly comparable. Moreover, some country and/ or group definitions have also changed over time. Some of these are stated below: Data for Russia prior to 1993-94 relate to erstwhile USSR with the exception of 1992-93, wherein the data relate to the Commonwealth of Independent States (C.I.S.) representing a group of following fifteen countries, viz., Armenia, Azerbaijan, Belarus, Estonia, Georgia, Kazakhstan, Kyrgyz Republic, Latvia, Lithuania, Moldova, Russia, Tajikistan, Turkmenistan, Ukraine and Uzbekistan.

- iv. From the year 2008-09, data in respect of European Union (E.U.) group consist of twenty-seven countries, viz., Austria, Belgium, Bulgaria, Cyprus, Czechoslovakia Rep, Denmark, Estonia, Finland, France, Germany, Greece, Hungary, Ireland, Italy, Latvia, Lithuania, Luxembourg, Malta, Netherlands, Poland, Portugal, Romania, Slovak Rep, Slovenia, Spain, Sweden and U. K. From the 1995-96 to 2007-08, data reported under E.U. relate to fifteen countries and prior to 1995-96, relate to twelve countries. Current 13 members of the OPEC are Algeria, Angola, Ecuador, Indonesia, Iran, Iraq, Kuwait, Libya, Nigeria, Qatar, Saudi Arabia, the United Arab Emirates and Venezuela. Ecuador and Gabon withdrew from OPEC membership at the end of 1992 and 1994, respectively. The two countries, viz., Angola and Ecuador have been added to OPEC during 2008. Data on OPEC totals, therefore, relate to the 13 countries for the period from 1987-88 to 1992-93, 12 countries for the period 1993-94 to 1994-95 and the 11 countries till 2007-08. Data on India's trade with Germany relate to Federal Republic of Germany up till 1989-90 and to unified Germany from 1990-91 onwards. Trade balance and its components have been defined as:
- a. Trade balance = Total exports - Total imports,
  - b. Oil trade balance = Oil exports - Oil imports,
  - c. Non-oil trade balance = Non-oil exports - Non-oil imports.

#### **For Table A7**

- i. Data for 2007-08 are provisional and for 2006-07 are revised.
- ii. Due to change in commodity classification by DGCI&S, data on 'Chemical Elements and Compounds', 'Machinery other than Electric', and 'Electrical Machinery, Apparatus and Appliances' from 1970-71 to 1975-1976 and 1976-77 to 1986-87 may not be strictly comparable. Compositions of some of the important commodity/groups used in the tables (from 1987-88 onwards) are as follows:
  - a. Leather & manufactures include finished leather, leather goods, leather garments, footwear of leather & components and saddlery & harness.

**MSME SECTOR:**

The following Concepts and Definitions were employed for the Third SSI census and may be referred to for interpretation of data in this section.

**Small Scale Industrial Unit (SSI):** An industrial undertaking in which the investment in fixed assets in plant and machinery, whether held on ownership terms, or on lease, or by hire purchase, does not exceed Rs. 100 lakhs as on 31-3-2001 is to be treated as a Small Scale Industrial Unit.

**Registered SSIs :** All SSIs registered permanently with State Directorates of Industries/ District Industries Centres as on 31-3-2001 are called registered SSIs. Some SSI units were earlier registered when the upper ceiling limit in plant and machinery was Rs. 300 lakhs. These units are also to be treated as registered SSIs.

**Unregistered SSIs :** All the SSIs not registered permanently with State Directorates of Industries/ District Industries Centres on or before 31-3-2001 are called unregistered SSIs. **Unregistered SSI sector :** All the Unregistered SSIs and the Unregistered SSSBEs constitute Unregistered SSI sector. SSIs and SSSBEs that are temporarily registered on or before 31-3-2001 as also the units that are temporarily or permanently registered after 31-3-2001 till the date of survey will be treated as unregistered for the purpose of this survey.

**Ancillary unit:** This is a sub-class of SSIs. An industrial undertaking which is engaged or is proposed to be engaged in - (i) the manufacture of parts, components, sub-assemblies, toolings or intermediates; or (ii) rendering of services, or supplying or rendering not less than fifty percent of its production or its total services, as the case may be, to other units for production of other articles and whose investment in fixed assets in plant and machinery, whether held on ownership terms or on lease or on hire purchase, does not exceed Rs. one crore as on 31-3-2001 is to be treated as an ancillary enterprise.

**Gross output :** It comprises total ex-factory value of products and by-products manufactured as well as other receipts such as receipts from non-industrial services rendered to others, work done for others on material supplied by them, value of electricity produced and sold, sale value of goods sold in the same condition as purchased, addition in stock of semi-finished goods and own construction.

**Net Worth :** The difference of current assets and current liabilities in each year gives net worth for that year.

**Working Unit:** An SSI or a SSSBE which has worked at least for one day during the reference period will be treated as a working unit. Otherwise, it will be treated as a closed unit.

**Economic Activity:** Any activity resulting in production of goods and services that adds value to national product is considered as Economic Activity. Such activity includes production of all goods and services for market i.e., production for pay or profit and the production of primary commodities for own consumption and own account production of fixed assets, among the non-market activities. The activities like prostitution, begging, smuggling etc. may result in earnings, but will not by

convention be considered as economic activities.

**Fixed Assets:** Fixed assets are assets held for the purpose of producing or providing goods and services such as land, building, plant & machinery, transport equipments, tools and other assets (new or used) that have a normal economic life of more than one year from the date of acquisition through out-right purchase/ hire purchase/ loans/ mortgage/ construction regardless of their use. They are not held for resale in the normal course of entrepreneurial activities. Full value of assets taken on hire purchase/ installments (whether fully paid or not) excluding interest should be considered. Intangible assets like goodwill etc. are excluded. Advance payment for fixed assets not yet received should not be considered. The information to be recorded here is by physical approach. Fixed assets owned but rented out are not to be accounted for. Additions to the fixed assets during the reference period are to be included. For the unit, which has not yet started providing service and is engaged in the process of installation, fixed assets will be duly considered.

**Plant and Machinery:** Plant is generally the name given to an assembly of machinery/ equipment/ devices installed for the operation of entrepreneurial activities. Machinery means an implement or mechanical device used in the entrepreneurial activities.

**Employment:** This relates to all persons engaged by the unit whether for wages or not, in the work connected directly or indirectly with the entrepreneurial activity and includes all administrative, technical and clerical staff as also labour in production of capital assets for factory's own use. It also includes all working proprietors and their family members who are actively engaged in the work of the unit even without any pay and the unpaid members of the co-operative societies who work in or for the unit in any direct and productive capacity.

**O/S loan:** Any borrowing in cash or kind to be repaid is to be treated as loan. The purpose of the loan should be for the use of the enterprise only. O/S loan is the amount of loan taken including interest that is O/S as on the closing day of the reference period. This includes all loans, whether short term or long term, whether interest bearing or not.

**Fixed Premises:** Units operating in fixed premises will only be considered prima facie as belonging to SSI sector. The following illustrations will make the concept of fixed premises clear.

- In a hat (periodical market) there are some permanent structures built by Panchayat or local bodies. The entrepreneurs occupy them on hat days and carry out their activities. These will be considered as activities without fixed premises.
- The activities carried on by the roadside or in the open public places like that under a bridge or a tree etc., with temporary make shift shelter or no structure at all are deemed to be carried out without fixed premises.
- The brick kilns, pottery etc., having fixed site (with or without structure) will always be identified at their sites. Hence, these are to be treated as being operated in fixed premises.

**Mixed Activity:** There are enterprises, which carry out a number of activities simultaneously. For example, a grocery shop owner may also sell oil from his own ghani, a doctor may have a medical shop attached to his dispensary, a restaurant may run an STD booth in its premises etc. Each of such activity is to be treated as a separate enterprise if information for them is separately available. If the accounts are not separable, then the data will pertain to the enterprise as a whole. The appropriate NIC code in such cases will be determined on the basis of major activity. Major activity refers to the activity, which yields maximum income/ turnover/ employment in that order of preference. In case of mixed activity of manufacturing and trade such as handloom weavers, sweetmeat shops, by convention manufacturing will be taken as the major activity.

**Sickness/ Incipient sickness:** The definition of sickness in SSI sector has been changing over time. The RBI have appointed Committees from time to time to look in to this issue. The latest definition given by the Working Group on Rehabilitation of Sick Units set up by RBI (Kohli Committee) is given below.

"A small scale industrial unit is considered as sick when

if any of the borrowal accounts of the unit remains substandard for more than six months, i.e., principal or interest, in respect of any of its borrowal accounts has remained overdue for a period exceeding one year will remain unchanged even if the present period for classification of an account as substandard is reduced in due course;

OR

There is erosion in the net worth due to accumulated losses to the extent of 50 per cent of its net worth during the previous accounting year, and

The unit has been in commercial production for at least two years."

#### **Criteria to identify sickness/ incipient sickness**

In the Third Census, the following criteria will be adapted to identify sick/ incipient sick units.

- i. Continuous decline in gross output compared to the previous two financial years;
- ii. Delay in repayment of loan, taken from institutional sources, for more than 12 months; and
- iii. Erosion in the net worth to the extent of 50 per cent of the net worth during the previous accounting year.

Units satisfying one or more of the above criteria will have to be treated by the enumerator as not having run satisfactorily and he has to elicit reasons.

#### **Definition of Micro, Small and Medium Enterprises**

##### **as per MSME Development Act, 2006**

<b>Manufacturing Sector</b>	
<b>Enterprises</b>	<b>Investment in plant &amp; machinery</b>

Medium Enterprises	More than five crore rupees but does not exceed ten crore rupees
<b>Service Sector</b>	
<b>Enterprises</b>	<b>Investment in equipments</b>
Micro Enterprises	Does not exceed ten lakh rupees:
Small Enterprises	More than ten lakh rupees but does not exceed two crore rupees
Medium Enterprises	More than two crore rupees but does not exceed five core rupees

#### **MSME CLUSTER DATA**

##### **For Table C10**

Data for 2008-09 are provisional.

Data relates to Commercial Banks, RRBs and Co-operative Banks.

## **CREDIT DATA**

### **For Table D1**

- i. Classification of bank offices according to population groups for the year 1969 is based on 1961 census. For the years 1998 to 2005, it is based on 1991 census. From the year 2006 onwards, it is based on 2001 census. As such, the population group-wise classification of bank offices is not strictly comparable for all the years. The number of bank offices of scheduled commercial banks excludes the administrative offices.
- ii. Population per office and per capita deposits and credit are based on estimated mid-year population figures supplied by the Office of the Registrar General, Government of India.
- iii. Deposits and credit of scheduled commercial banks in India are as per return under Section 42(2) of the Reserve Bank of India Act, 1934 and relate to the last Friday of the reference period. Deposits are net of inter-bank deposits and credit is exclusive of dues from banks and bills rediscounted under the New Bill Market Scheme.
- iv. Aggregate deposits for the years 1999 to 2003 include the proceeds of Resurgent India Bonds amounting to Rs. 17,945 crore. For the years 2001 to 2005, the proceeds of India Millennium Deposits amounting to Rs. 25,662 crore are included in aggregate deposits. The ratio of bank deposits to National Income for the years 1998 to 2008 is based on the new series of National Income with 1993-94 as the base year. For the year 1969, the base year is 1970-71. Due to change in the definition of the Priority Sectors from time to time, the data are not strictly comparable for the entire time span. Investments for the purpose of calculation of Investment-Deposit ratio pertain to investments in Government and Other Approved Securities. For working out Cash-Deposit ratio, Cash includes, cash in hand and balances with Reserve Bank of India.

### **For Table D4**

- i. Data include the impact of mergers since May 3, 2002.

Micro, Small and Medium Enterprises (MSMEs) form a vital part of Indian economy and data on the sector are utilised by various stakeholders, forming a crucial input not only for framing of policy but also for planning and implementation of MSME programmes, researches, etc. The need for accurate, timely and reliable information on this sector has been widely acknowledged and MSME database is an initiative to bridge this gap and allow participants of the sector and its various stakeholders to access data from a single, reliable source.

The database provides a comprehensive and detailed view of India's MSME sector covering various aspects of the sector, including macroeconomic indicators, flow of credit, schemes of GoI, assistance provided by various institutions, sickness, etc.

The MSME database has been divided into following sections:

- Indian Economy
- MSME Sector
- MSME Clusters
- Credit Data
- Sick MSME Data
- Alternative sources of finance for MSMEs
- SIDBI

The creation of MSME database is being undertaken under the Technical Assistance of Department for International Development (DFID), UK, under the MSME Financing and Development Project (MSFEDP), which is being implemented by Small Industries Development Bank of India (SIDBI).
