Evaluation of Technical Bids:

- Evaluation of only eligible Bidders would be carried out in the following manner:
- The Bidder's technical/functional solutions proposed in the Bid document will be evaluated as per the requirements specified in the Statement of work documents ("SOWs") and the Bidder is required to provide details on the proposed solution adopting the evaluation framework mentioned below
- Proposal Presentations: NaBFID, if required, may invite each Bidder to make a presentation to NaBFID at a date, time, and location determined by NaBFID. The purpose of such presentations would be to allow the Bidders to present their proposed solutions and the key points in their proposals to NaBFID for clarification and evaluation purpose.
- NaBFID may undertake written clarifications from the Bidders. The primary function of clarification in the evaluation process is to clarify ambiguities and uncertainties, if any, arising out of the evaluation of the Bid documents.
- Technical Bid score will be evaluated using a weighted scoring mechanism that is pre-decided and assigned to each of the SOWs. Technical Bid evaluation parameters will be as per Appendix C.

- Only those Bidders with a minimum score of 75% in the technical evaluation will be shortlisted for the commercial evaluation.

Stage 2: Evaluation of commercial price bid:

- NaBFID will open the commercial price Bids of only technically successful Bidders as per Appendix – C.
- The date for the opening of the commercial price Bid will be communicated separately to the technically eligible Bidders.
- Errors, if any, in the price breakup format will be rectified as under:
 - If there is a discrepancy between the unit price and total price which is obtained by multiplying the unit price with quantity, the unit price shall prevail, and the total price shall be corrected unless it is a lower figure. If the Bidder does not accept the correction of errors, the Bid will be rejected.
 - If there is a discrepancy in the unit price quoted in figures and words, the unit price in figures or in words, as the case may be, which corresponds to the total Bid price for the Bid shall be taken as correct.
 - If the Bidder has not worked out the total Bid price or the total Bid price does not correspond to the unit price quoted either in words or figures, the unit price quoted in words shall be taken as correct.
 - The Bidder should quote for all the items/services desired in this RFP. In case, prices are not quoted by any Bidder for any specific product and / or service, for the purpose of evaluation, the highest of the prices quoted by other Bidders participating in the bidding process will be reckoned as the notional price for that service, for that Bidder. However, if selected, at the time of award of Contract, the lowest of the price(s) quoted by other Bidders (whose commercial price Bids are also opened) for that service will be reckoned. This shall be binding on all the Bidders. However, NaBFID reserves the right to reject all such incomplete Bids.
- The commercial price Bid would be evaluated based on “Total Cost of Ownership” (“TCO”) basis. The key considerations of the TCO would be the total payouts for entire project through the Contract period, discounted at 10% to arrive at the present value of future cashflows. The calculation performed by NaBFID in this regard will be as follows:
- The discounted cost will be calculated on a yearly basis based on the formula $A/(1+i/100)^n$, where A = Total value in the year, i = 10%, n = number of years
- The present value will be calculated for all components where payment is recurring year on year. The present value will start from the year of purchase of the component/start of services and shall be calculated till the end year of the contract. Further, n will be ‘0’ in the year of purchase of the component/start of services and increase by 1 in subsequent years.
- Any component/service for which the payment is a one-time cost the NPV cost of the service/equipment for that year will be considered and the relevant year’s NPV cost will be added as part of the present value calculation for that year. Further, the payment of one-time cost component/services is not recurring in nature hence the present value for component/services will be considered in the year of purchase only and not in subsequent years.
- The evaluation will be carried out if commercial price Bids are complete and computationally and conceptionally correct as per the templates attached to each of the SOWs as per Appendix – F.

- NaBFID reserves the right to accept or reject an offer without assigning any reason whatsoever. The Bidder is expected not to add any conditions/deviations to the commercial price Bid. Any such conditions/deviations may make the Bid liable for disqualification.

Stage-3: Computation of Weighted Score

- After qualifying the Eligibility Criteria, the technical and commercial evaluation shall have the weightage of 70% and 30% respectively and the weightage will be considered for arriving at the successful Bidder.
- On the basis of the combined weighted score for technical and commercial evaluation, the Bidders shall be ranked in terms of the total score obtained. The proposal obtaining the highest combined score in the evaluation of quality and cost will be ranked as H-1 followed by the proposals securing lesser marks as H-2, H-3, etc. The proposal securing the highest combined marks and ranked H-1 shall be recommended for award of the Contract.
- As a working example, the following procedure can be followed:

Score (S) will be calculated for all qualified Bidders using the following formula:

$$S = (C_{low}/C) * X * 100 + T * (1 - X)$$

Here,

C stands for discounted amount arrived basis commercial evaluation as per commercial evaluation template in Appendix F

C_{low} stands for lowest discounted amount arrived basis commercial evaluation

T stands for the technical evaluation score

X is equal to 0.30

S. No.	Bidder	Tech evaluation (T)	Discounted Amount (C)	T*70% (A)	$(C_{low}/C)*30%*100$ (B)	Score (S = A + B)
1	AAA	75	120	52.5	25	77.5
2	BBB	80	100	56	30	86
3	CCC	90	110	63	27.3	90.3

In the example above, C_{low} is 100. CCC, with the highest score (S) becomes the successful bidder (H1). In case of more than one vendor with equal highest score (S) up to 3 decimal points, then number of decimal will be increased.

- Bidders are obliged under this clause to suo-moto proactively declare any conflicts of interest (pre-existing or as and as soon as these arise at any stage) in RFP process or execution of Contract. Failure to do so would amount to violation of this code of integrity.
- Any Bidder needs to declare any previous transgressions of such a code of integrity with any entity in any country during the last three years or of being debarred by any other procuring entity. Failure to do so would amount to violation of this code of integrity.
- For the purposes of this clause, the following terms shall have the meaning hereinafter, respectively assigned to them:

When a Service Provider is on the holiday listing, he is neither invited to bid nor are his bids considered for evaluation during the period of the holiday. The Service Provider is, however, not removed from the list of empaneled service providers, if any. Performance issues which may justify holiday listing of the Service Provider are:

- Service Providers who have not responded to requests for quotation/tenders consecutively three times without furnishing valid reasons, if mandated in the empanelment contract (if applicable);
- Repeated non-performance or performance below specified standards (including after sales services and maintenance services etc.);

Reasons which may justify debarment and/or removal of the Service Provider from the list of empaneled Service Providers are:

- Without prejudice to the rights of NaBFID under Clause 38(i) hereinabove, if a Bidder is found by NaBFID to have directly or indirectly or through an agent, engaged or indulged in any corrupt/fraudulent/coercive/undesirable or restrictive practices during the bidding process, such Bidder shall not be eligible to participate in any expression of interest/request for proposal issued by NaBFID during a period of 2 (two) years from the date of debarment.
- Service Provider fails to abide by the terms and conditions or to maintain the required technical/operational staff/equipment or there is change in its production/service line affecting its performance adversely, or fails to cooperate or qualify in the review for empanelment;
- If Service Provider ceases to exist or ceases to operate in the category of requirements for which it is empaneled;
- Bankruptcy or insolvency on the part of the Service Provider as declared by a court of law; or

- Employs a government servant or NaBFID's officer within two years of his retirement, who has had business dealings with him in an official capacity before retirement; or
- Any other ground, based on which NaBFID considers, that continuation of Contract is not in public interest;
- If there is strong justification for believing that the partners/directors/proprietor/agents of the firm/company has been guilty of violation of the code of integrity or Integrity Pact (wherever applicable), evasion or habitual default in payment of any tax levied by law; etc.
- **Banning from Ministry/Country-wide procurements**
For serious transgression of code of integrity, a delinquent Service Provider (including their related entities) may be banned/debarred from participation in a procurement process of NaBFID including procurement process of any procuring entity of Government of India for a period not exceeding three years commencing from the date of debarment.

**Technical Bid Evaluation**

1. The objective of technical evaluation and shortlisting of the Bidders is to facilitate the selection of the most optimal Software Solution(s) that appropriately meet the requirements of NaBFID. All Bids shall be evaluated by an evaluation committee set up for this purpose by NaBFID. NaBFID will evaluate the technical offers of the Bidders complying with Eligibility Criteria mentioned in Appendix-B and the proposals meeting the said criteria will only be taken up for further technical evaluation.
2. As part of the technical Bid, the Bidder shall have to submit all the specified documents/information covering all the clauses specified in the RFP. The Bidders are required to submit a soft copy of the presentation to NaBFID along with their technical and commercial price Bids.
3. Bidders, at the discretion of the institution, may be asked to deliver an exclusive presentation detailing the proposed architecture and implementation approach, rollout strategy for the proposed solution. NaBFID, at its discretion, may ask Bidders to present their solution through online mode.
4. A Bidder needs to achieve a minimum score of 75% marks in this evaluation stage to be qualified for commercial price Bid opening. Only those Bidders who achieve a minimum score of 75% marks would be short-listed for commercial price Bid evaluation. The technical proposal will be evaluated for technical suitability based on the following criteria mentioned in point number vi & vii. The decision of NaBFID in this regard will be final.
5. In case there is only one Bidder having a technical score of 75% or more, the NaBFID may, at its sole discretion, also consider the next highest technical score and qualify such Bidder. In case, none of the participating Bidders qualify on technical criteria and reach or exceed the cut-off score of 75%, then the NaBFID, at its sole discretion, may qualify two Bidders on the basis of the top 2 scores. However, NaBFID at its discretion may reject the proposal of the Bidder or will not consider Bidder below cut-off marks by relaxing as mentioned above, if in the NaBFID opinion the Bidder could not present or demonstrate the proposed services/projects as described in the proposal or in case the responses received from the customer contacts are negative or the proposed service/projects do not meet the NaBFID requirement.
6. Bidder's technical submission and presentation should cover the following aspects:

NaBFID shall use its reasonable endeavors to mitigate such costs and shall not be entitled to recover twice in respect of the same loss.
