1	Poverty and social baseline assessment for PSIG MFI Partners, by SIDBI, We request for clarification that can the applicant agency apply for one State out of 4 as stated in your RFP	No. Agency has to submit a proposal for all the 4 PSIG States.
2	Under scope of work data collection it says sample size to not exceed 700 for each of 25 MFIs . In just the above sentence it mentions that data collection will be done for 30 microfinance institutions . However we have noticed that terms of payment refer to 30 MFIs .
